

## **List of Tracks**

1. Information Technology, Artificial Intelligence, and Automation Processes
2. X-ray Radiography, Fluoroscopy, Interventional Radiology and Mammography
3. Computed Tomography and Cone Beam CT
4. Diagnostic Imaging Using Non-Ionizing Radiation
5. Nuclear Medicine, Diagnosis and Therapy
6. Photon and Electron Beam Therapy
7. Brachytherapy
8. Particle Beam Radiotherapy (Proton, Carbon, Dual Particle, BNCT)
9. Modelling and Simulation
10. Dosimetry and Radiation Protection
11. Quality Assurance and Auditing
12. Image Processing
13. Medical Physics Education and Training
14. Sustainable Healthcare in implementation and support of health services  
in LMI countries
15. Miscellaneous
